- > SLIDE ON/OFF FLOORPLATE FOR EASY CLEARING & MAINTENANCE
- > ADDED TEXTURING TO INCREASE GRIPPING IN ALL WEATHER CONDITIONS
- > AVAILABLE IN: TRANSLUCENT SMOKE, BLACK, OD GREEN, FLAT DARK EARTH, & FOLIAGE GREEN

ADVANCED WARFIGHTER MAGAZINE

Designed for the U.S. Military Special Operations Community, the Advanced Warfighter Magazine (AWM) is suitable for many NATO codified 5.56mm weapon systems. The AWM provides the same durability and performance the Lancer Magazines are known for while delivering more operational versatility, longer life cycle, greater ease of use, and easier maintenance. The AWM can be utilized with live 5.56mm ammunition or be utilized with 5.56mm man marking cartridges for a training application, providing a one magazine solution for a plethora of applications. Wraparound hardened steel feed lips provide a metal catch and increase the overall strength, integrity, and life cycle of the magazine. A slide on floor plate allows for quicker break down of the magazine making them easier to clean and maintain. Additional texturing has been added to the exterior of the magazine to increase the ability to grip the magazine in all weather conditions. The Advanced Warfighter Magazine (AWM) is the most advanced, highest performing, impact resistant polymer magazine currently available in 20 Round and 30 Round capacities. The AWM's are available in Translucent Smoke, and the opaque colors Black, OD-Green, Flat Dark Earth, and Foliage Green.

L5-20 Advanced Warfighter Magazines (AWM)

L5-30 Advanced Warfighter Magazines (AWM)

Magazine Cinches

Universally mounts to all Lancer Systems L5 Magazines and 5.56 USGI Magazines

Key Features:
