Contract GS-07F-5566P

# SMALL ARMS COLLIMATOR

**(SAC)**

The Small Arms Collimators (SAC) is a waterproof, durable, field necessity that allows Operators to zero their weapon systems with out live fire. An Alpha-Numeric Grid provides reticle references for the correct zero position for weapons systems in 5.56mm, 7.62, .50 cal, and 40mm weapon systems. The SAC can be utilized during day or night operations providing the Operator the confidence that they are going to be on target when they need to be. The SAC is also an essential training tool to save time, money, and ammunition during training evolutions of new recruits.

(5.56 CAL) COLLIMATOR

(7.62 CAL) COLLIMATOR
